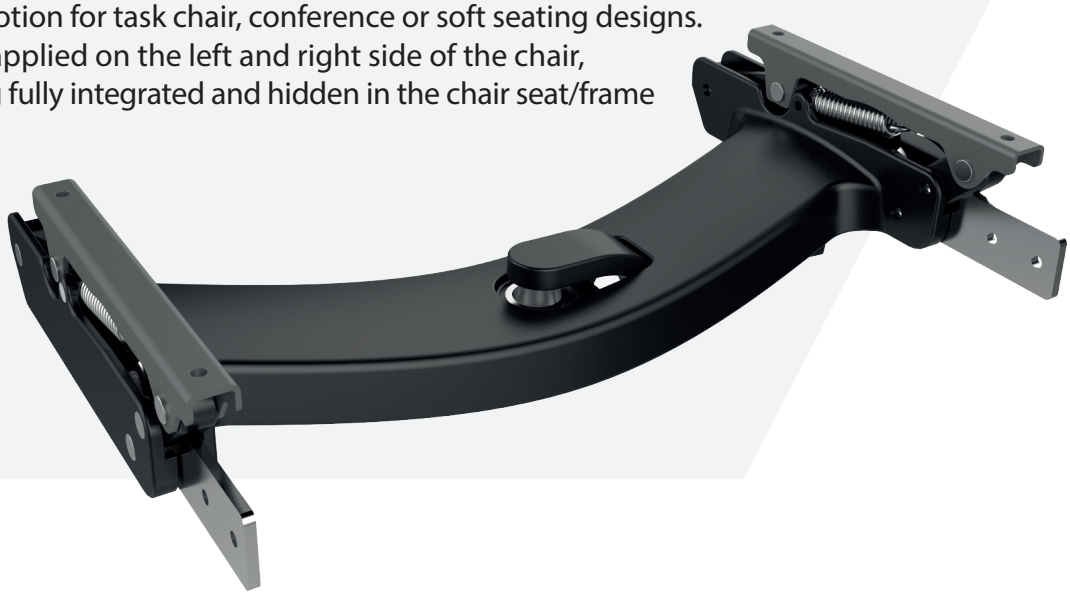
SELF-WEIGHING SYNCHRO

Leggett & Platt®
WORK FURNITURE

LP19 | SELF-WEIGHING SYNCHRO MECHANISM

LP 19 EASYFLEX is an advanced chair mechanism design
that provides self-weighing motion for task chair, conference or soft seating designs.
With a pair of slim cartridges applied on the left and right side of the chair,
the Easyflex is capable of being fully integrated and hidden in the chair seat/frame

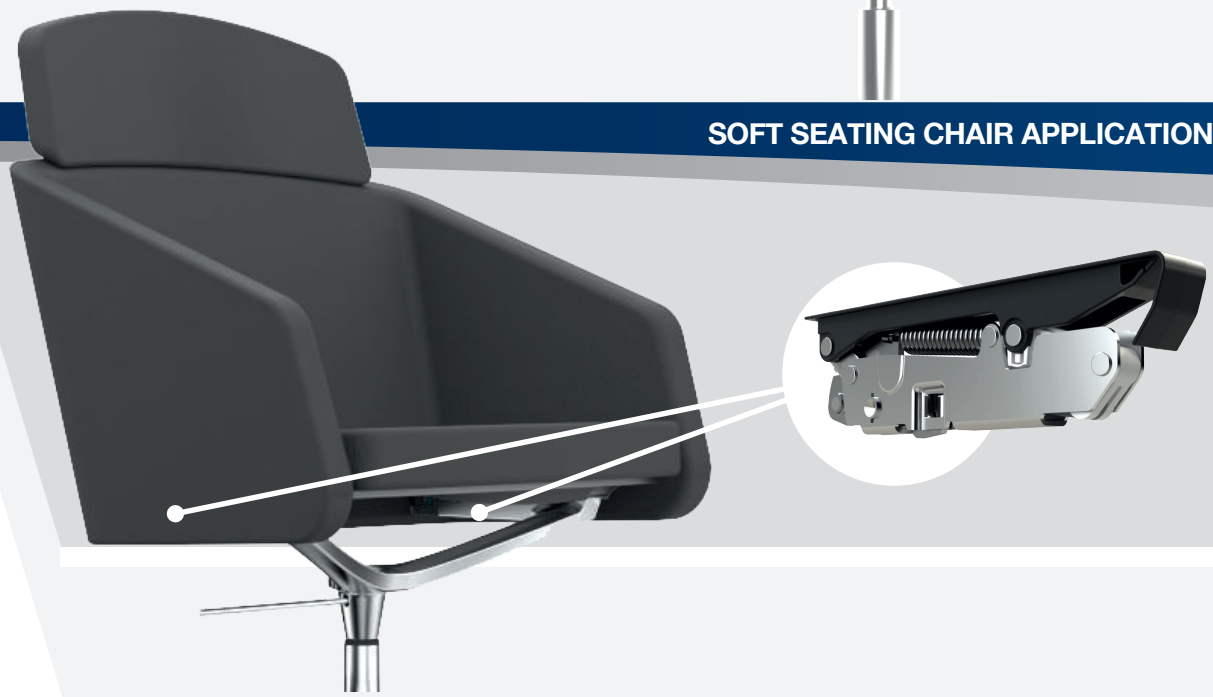


FEATURES

- Self-weighing synchronous motion
- Backrest travel of 20° and seat travel of 6°
- Synchro ratio 3,3 : 1
- Cartridge options provide standard and lateral fixation backrest support
- Ideal for mesh and elastic membrane seating
- Customized seat support (plastic or aluminum)

TASK CHAIR APPLICATION

SOFT SEATING CHAIR APPLICATION



COLLECTIVE SPACE / MULTIPURPOSE CHAIR APPLICATION
